Eyal Perry

Software Engineer

Karmiel, Israel.

Mobile: +972-54-314-6808

Skype: e.perry.pa

e.perry.pa@gmail.com

Technologies

C#	Expert
.NET/Core	Expert
Javascript	Proficient
React	Proficient
Redux	Proficient
Node.js	Proficient
Docker	Proficient
HTML	Proficient
MongoDB	Intermediate
RabbitMQ	Intermediate
S/CSS	Intermediate
Git	Intermediate

Paradigms

Test Driven
Async
Object Oriented
Functional
Microservices
Reactive

Experience

Frontend Engineer

Wix   December 2018 – Present

Developing and Testing Wix.com core features.

Tech Stack

Javascript Typescript React Redux MobX Node.js

Software Engineer

CorAlert   July 2017 – November 2018

Designing, Testing & Developing a Cloud Backed IoT application.

Tech Stack

Javascript React Redux SCSS Node.js MongoDB
.NET Core C# RabbitMQ Docker AWS

Projects

CorAlert Device

Development of a software stack for a medical device which detects heart failure.

Features

Upstream synchronization of logs and data.
Downstream synchronization of software versions and configuration profiles.
Configurable Parallelism of Medical algorithms

CorAlert Management Console

Development of a cloud application which complements the company's device.

Features

Track the status of devices.
Deploy and create device configuration profiles
Deploy software versions to devices.
View device logs (both historical and real time).
View device generated data.

Software Engineer

CodeValue   March 2016 – July 2017

Developing Software Systems and API's, as specified by client stakeholders.

Tech Stack

C# .NET MongoDB WPF ReactiveX XUnit

Teaching Assistant

CodeValue   June 2016 – July 2017

Training entry level employees, as part of an introductory .NET course.
Screening candidates by evaluation of assignments
Conducting hands-on coding sessions.
Evaluating and reviewing solutions of lab assignments.

Tech Stack

C#   .NET

Software Engineer

Zeiss   February 2013 – March 2016

Development of in-house and client facing Software Systems.
Part Time Position.

Tech Stack

C#   WPF   .NET   Entity Framework

Education

B.Sc. Software Engineering   (Ort Braude College)
Class of 2016.   GPA: 83;

Tech Stack

C#   .NET   Entity Framework   Android

Projects

Smart Calendar

An Android Application which enhances itinerary management with location awareness.

Features

 Leave On Time for next appointment
 Predict missed appointments
 Team Itinerary planning and management
 On site and on time presence assurance
